

Joysway Pirate Segel Yacht RTR 2.4GHz

Art.Nr.: B-JS-8809

Joysway Pirate Segel Yacht RTR 2.4GHz

The Pirate is a unique twist on the popular Joysway Explorer boat offering a fun new style. The Pirate is suitable for any level of model boat enthusiast. Whether you are an experienced captain or just starting out, you will have great fun with this model.

The Joysway Pirate has great performance and is quick to assemble and get sailing. Factory finished from quality durable components including a tough ABS hull and carbon masts/booms. A high power sail winch servo comes included and pre-fitted along with a metal geared rudder servo, receiver and stylish slim 2.4GHz transmitter.

The Pirate yacht uses a sophisticated hull design and built-in rig 'tuning' make it excel in a wide range of wind conditions. It makes a great choice for a group of experienced skippers and novices alike.

- Tough moulded plastic hull
- Carbon fiber booms and mast
- 2.4GHz radio included
- Metal geared rudder servo
- Zink alloy ballast and aluminium alloy keel
- Display stand included.

Required for use: 8 x 'AA' batteries for the transmitter and receiver.
