

Super Flying Model Fokker DVII EP ARTF Teal 1200mm

Art.Nr.: A-SFMEP46D

The Fokker DVII ARTF will satisfy anyone wanting to recreate the feel of a WWI flight with SFM's realistic and quality balsa and balsa plywood construction, precision laser-cut parts model aircraft.

Pre-built and pre-covered with shock-absorbing landing gear, complete pre-bent wire and hardware package with step-by-step instructions will make this a superb choice of model aircraft to own.

- All top -quality balsa and balsa plywood construction, precision laser-cut parts.
- Come with shock-absorbing landing gear, complete pre-bent wire and hardware package with step-by-step instruction
- 90% pre-build and is already covered with iron-on covering.
- Connect the top and bottom main wing with ball-end rods. It is easy to disassemble the main wing set by using ball-link pliers.
- Magnet attached battery cover and hook and Loop strap make it very easy to change the battery pack.
