

Super Flying Model Fournier RF-4D EP ARTF 1800mm

Art.Nr.: A-SFMEP45

The Fournier RF-4 is a single-seater motor glider designed by Ren? Fournier in 1966 and conceived as a motor glider and sport touring aircraft.

SFM's version comes as an all balsa lightweight strong construction providing a realistic feel. Pre-built and pre-hinged makes assembly easy with step by step instructions leaving only the 4 channel radio control, motor and battery to install with the recommended specification 1000KV Brushless 30A ESC Li-Po 3-cell 11.1v 2000mAh.

For a realistic sports glider with forgiving characteristics this model makes a superb choice.

- All balsa constructed electric sport glider
- Pre-built, pre-covered, pre-hinged and easy to assemble
- Covered with top coloured OPP film
- 90% Strong and lightweight construction
- 1000KV Brushless 30A ESC Li-Po 3-cell 11.1v 2000mAh
