

FMS 64mm 11 Blatt Ducted Fan / Impeller incl. Brushless Motor 2840-
KV3150 (fr 4S)

Art.Nr.: FMSDF003

Fms

64MM DUCTED FAN JETS

64MM 11 BLADES

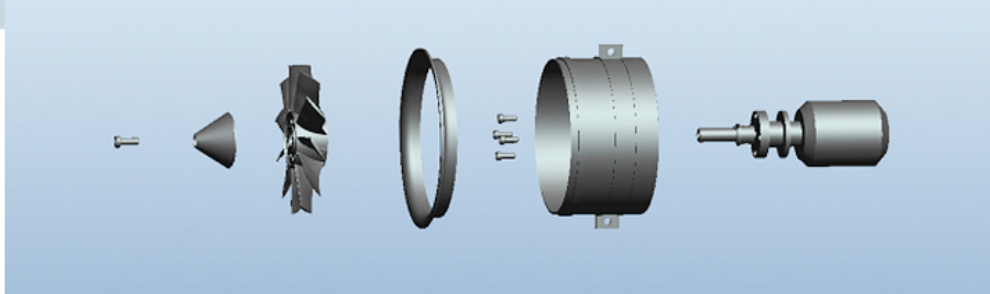

Composite material with high strength and tenacity.

Excellent dynamic balance with great efficiency.

Fms original thermal design.

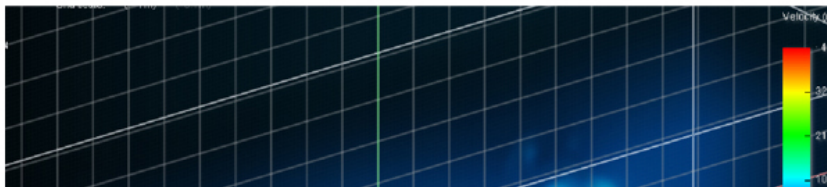

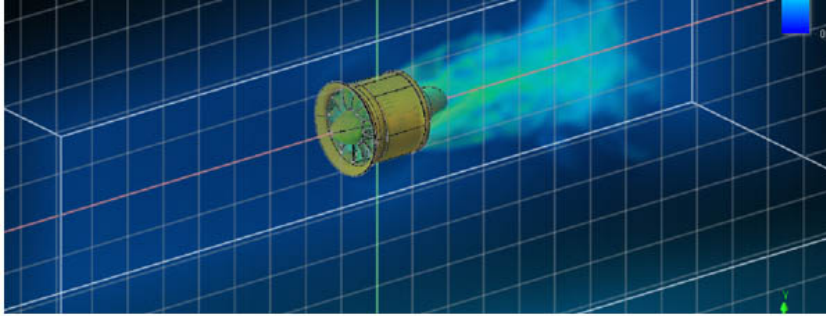

All composite materials processing and injection molding processing , with ultra high rigidity and toughness

- 1 The first-class mode design excellently ensures the dynamic balance of fan blades, meanwhile, makes the fan blades and duct meet at the very place. We guarantee both the sound effect and the efficiency value could rival any metal ducted fan in the market.

COMPARISON TEST			
FMS plastic ducted fan	12.5 V	40 A	thrust : 900 g
Other brand metal bypass	12.5 V	54 A	thrust : 880 g

Performance test parameters : dynamic group weighs 135 g

3S lithium battery : 12.5 V 40 A thrust : 900 g

4S lithium battery : 16.5 V 40 A thrust : 1150 g

- 2 Designed with insider knowledge of professional aerodynamics and air flow field analysis from the prestigious Baihang University. Having such a solid theoretical background effectively shortens the FMS development cycle, pushing us to the forefront of cutting edge innovation.
- 3 The rational structure allows compatibility with motors from different suppliers and makes it possible to install on all 70mm ducted fan jets, without much manual changes.

PRODUCT SPECIFICATION

THE INFORMATION CONTAINED HEREIN IS THE PROPERTY OF FMS. IT IS TO BE USED FOR THE PURPOSES OF THE PRODUCT ONLY. ANY REPRODUCTION OR DISTRIBUTION OF THIS INFORMATION WITHOUT THE WRITTEN PERMISSION OF FMS IS STRICTLY PROHIBITED.

Recommended Specification :

Battery : 3S 2200mAh 35C Lipo battery

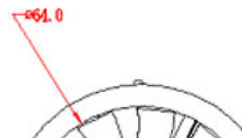

ESC : 40A brushless ESC

Motor : 2840 - kv3900 brushless outrunner motor

Battery : 4S 2600mAh 35C Lipo battery

ESC : 40A brushless ESC

Motor : 2840 -kv3150 brushless outrunner motor
