

## DYNAM P51 MUSTANG 1200mm PNP V2 incl. EZFW

**Art.Nr.:** DYN8939V2

The new P51D Mustang by Dynam is a true scale 5 channel R/C aircraft and comes with pre-installed electronic retracts. The stunning look make this super realistic in the air and taxiing on the ground. The P51D is an aircraft that is super stable and capable of maintaining flight at super slow speeds that allow novice to master flight mechanics with ease. Will easily take off from any smooth surface on its scale landing gear. Made from a high strength EPO-foam for added durability. Powered by a high powered 950KV electric brushless motor provides a thrilling flight of over 50mph for up to 8-12 minutes.
