

Topmodel CZ Swift S1 ARF - 3730mm - Standard Version

Art.Nr.: 02099ARF

Semi-scale model of the famous sailplane.

The wings are equipped with air-brakes but also with camber flaps. These flaps have a longer length compared to reality and are divided into 2 parts. Thus, it is possible to use these 2 parts, together, like gigantic ailerons but also as camber flaps. This makes possible to make the Swift even more general-purpose and powerful in aerobatic.

Swift S1 ARF (covered with Qualit?tsfolie?). ECONOMICAL version kit with simplified equipment and in lower stage of completion.

The model is designed and manufactured in Czech Republic. Spare parts are in stock.

Technical specification:

						
3730 mm	1740 mm	5,8-6,8 kg	85,2 dm ²	68-79,8 g/dm ²	HQ 1,5-12	A-P-D-AF-TR-CR
