

Topmodel CZ Slash elektro ARF - 1600mm - Hotliner

Art.Nr.: 020134EARF

Slash is small electric glider for sports flying. This airplane is especially designed for pilots who are looking for multipurpose fast sailplane. Strong enough for fast dives, but still light enough for thermal soaring. Slash has been re-designed for better flying characteristics with new classic balsa, built-up, D-box, rib/main spar wing design. Also included are the fiberglass gel-coated fuselage and balsa built-up tail parts. The synergy of low weight and strong structure is very unusual in a production sailplane and can only be achieved with careful attention to design and construction.

Virtually perfect, very well made and extremely clean entry level sailplane.

Technische Daten:

Spannweite: 1610mm

Länge: 875mm

Gewicht: 0,58-0,75kg

Profil: MH32MOD

Empfohlene Zubehör:

Servos: 4x Mikroservos für Querruder, Höhenruder und Seitenruder z.Bsp. XLD09HMB

Motor: AXI 2217/12 V2 LANG oder ähnlich

Controller: 35-45A Wasabi

Spinner: "Turbo" 30 mm

Prop: 8x6 "CAM CARBON Klapp Prop

Akku: 3S LiPO ca 1300mAh

PREIS:

235,90 EUR

inkl. 19 % MwSt. zzgl. **Versandkosten**
