

Spektrum DXS Sender mit AR410 Empfänger

Art.Nr.: SPM1010

Features

- Spektrum™ DXS system includes transmitter plus full-range, 4-channel AR410 DSMX²/DSM2² compatible air receiver
- Supports Spektrum™ Smart Technology for Smart ESC and Smart LiPo battery telemetry
- Transmitter LEDs display Smart LiPo flight battery status for easy voltage monitoring — an industry first!
- Proven ergonomic design is optimized for comfort and precise, fatigue-free control
- Offers wireless trainer system capability with optional SRXL2™ DSMX² Remote Receiver (available separately)
- Registration and updates are possible through a PC with optional USB Programming Cable (available separately)
- Transmitter comes configured to provide the benefits of SAFE² technology with compatible SAFE-equipped receivers
- DXS transmitter and AR410 receiver are both fully compatible with other Spektrum™ DSMX² systems
- DXS is also available as transmitter-only, requiring a compatible receiver

Overview

For any RC flight enthusiast looking to strike the perfect balance between economy and innovative, high-end features, the 7-channel Spektrum™ DXS radio and AR410 4-channel receiver combine to create the ideal system. It offers full range control, secure DSMX² interference resistance, advanced telemetry capabilities, and proven transmitter ergonomics for fatigue-free flying. The simplified setup of the DXS also gets you into the air faster, with less time needed for preparation and programming.

Needed to Complete

- (4) AA Alkaline Transmitter Batteries

What's in the Box?

- (1) Spektrum™ DXS 7-channel DSMX² Radio Transmitter
- (1) USB Serial Adapter

- (1) Spektrum AR410 DSMX[?] Full-Range 4-Channel Receiver
- (1) Product Manual

DSMX[?] TECHNOLOGY

The DXS transmitter is built around proven Spektrum[™] DSMX[?] 2.4GHz frequency-agile technology — the most advanced spread spectrum RC technology to date. By adding the agility of unique frequency shifts to the superior interference resistance of a wideband signal, and by limiting those shifts to a smaller portion of the 2.4GHz band, DSMX transmitters provide

ERGONOMIC DESIGN

Weight distribution, switch placement and trim switch positions have been optimized for comfort and fatigue-free control. An integrated handle and neck strap hook are included for easy carrying. Ports are provided in the rear battery compartment for using optional wireless trainer and PC programming capabilities. The SRXL2[™] DSMX[?] Remote Receiver (available separately) is required for wireless trainer support. Registration and firmware updating are possible from your PC by downloading the software from the DXS product page at SpektrumRC.com and using the USB

AR410 4-CHANNEL SPORT RECEIVER

The Spektrum™ AR410 is a full-range, 4-channel sport air receiver with DSMX²/DSM2² compatibility and a compact footprint that's streamlined to fit in a wide range of models. The AR410 features an internal antenna design for durability and easy installations while maintaining superior full-range performance. In addition, the AR410 offers fly-by range telemetry that includes flight log and receiver battery pack voltage data. Access to telemetry is automatic when used with any telemetry-capable Spektrum

FLIGHT PACK VOLTAGE MONITOR

Get essential flight battery status information at a glance from the DXS transmitter when using it with Smart Avian™ ESCs and Smart LiPo batteries (sold separately). Four green LEDs on the front of the transmitter communicate the flight battery voltage level. In normal operation with a Smart ESC and Smart battery, only one of the LEDs will glow if the battery is low. Two illuminate to indicate a half-charged battery, three light if the battery is between half and full charge, and all four shine when the flight

battery is fully charged.

Produkt Eigenschaften

SPECS

Application	Aircraft
Band	2.4GHz
Bind Method	Bind Button
Channels	7
Frame Rate	22 Ms
Modes	Mode 2
Modulation	DSMX
Programmable	Yes
Range	Full
Rate Positions	2
Resolution	2048
Technology	SAFE
Telemetry	Yes
Transmitter (Tx) Battery Type	4 AA alkaline
Type	Aircraft radio system
Water-Resistant	No
