
SEAGULL CAP 232 ARF 46 size - 1450mm

Art.Nr.: BT-SEA97

Seagull CAP 232 (.46) ARF Airplane

The CAP 232 was designed with the intermediate/advanced sport scale in mind. It is a semi scale airplane which is easy to fly and quick to assemble. The airframe is conventionally built using balsa, plywood to make it stronger than the average ARTF, yet the design allows the airplane to be kept light. You will find that most of the work has been done for you already. The motor mount has been fitted and the hinges are pre-installed. Flying the CAP 232 is simply a joy.
