
SEAGULL Taylorcraft 25e EP BC-12D (.25-.32) ARF - 1575mm

Art.Nr.: SEA193

Seagull Taylorcraft 25e EP BC-12D ARF Airplane

A vintage classic, the Taylorcraft BC-12D Seagull models have an uncanny knack for choosing great subjects for their models and the BC-12D is a great example. The Seagull Taylorcraft is a great model and can be powered either by i.c. or an electric motor with little fuss. Electric motor mount is included. No need for an expensive radio because a basic 4-channel radio system is all that's required to control the BC-12D. Covered in genuine Qualit?tsfolie, the Taylorcraft looks great in its authentic vintage color scheme.
