

Squall Vektor Schub Einheit

Art.Nr.: A-PH019-13

Vektor Schub Einheit für Squall.

Anlenkung nicht enthalten. Bitte extra mit bestellen. A-PH019-14

3 Achsen Vektor Schub Einheit.

Explore the possibilities of amazing 3D manoeuvres and jet hovering. For hovering, it is recommended to be used on the Squall! HP because of the better thrust to weight ratio.

This unit connects to the existing servos and requires no additional servos or radio programming. It is totally mechanically linked. You may need to change some of your control movements and rate responses to compensate for the increased control power.
