

Topmodel CZ IBIS 3070mm ARF ROT - Segelflugmodell

Art.Nr.: 020107ARF

The wing spars and leading edge from carbon fibre gives the wing enough strength and stiffness.

Many expert pilots will be particularly surprised by its excellent flight qualities, given by the thin wing airfoil and weak weight.

Thanks to the long fuselage, the model has a calm and steady glide path. There are several possibilities how to mix the functions of the flaps (high performance thermal soaring, spot landing etc.).

With the recommended gear train set, the performances are fantastics.

The fuselage is carbon reinforced!!!

The model is designed and manufactured in Czech Republic.

If you are interested in a different color combination than we offer, please contact us.

Technical specification:

						
3070 mm	1550 mm	1,75-2,25 kg	70,4 dm ²	24,9-31,3g/dm ²	MH 32	Ai+Fl+E+R

RECOMMENDED EQUIPMENT:

RX battery: NiCd 4,8V 1700mAh or lipo

servo: 5x HS 82MG - flaps, ailerons, elevator

1x HS-485 - rudder

Kit contents:

- Light fuselage (carbon reinforced) moulded in white tinted epoxy fiberglass
- Three-piece wing is made in balsa framework with wing joiner, leading edges and wing spar made of carbon
- Tailplane are made in a balsa framework with carbon spar and leading edges
- Top quality accessories

- Vinyl cnc cut stickers
- Complete assembly manual with step by step illustrations

PREIS:

569,90 EUR
