

Topmodel CZ ENIGMA 2740mm ARF Violett

Art.Nr.: 020116ARF

High powered thermic glider (electro glider) for sports and competition flying. Enigma is available as a glider. Kit contains parts for the electrification, including preparation for cutting the front of the fuselage.

The Enigma is one of the most beautiful combinations of classic design and modern technology. The nostalgic shape is perfectly blended with modern building techniques to create an electric sailplane that performs as well as it looks. The white gel-coated fiberglass fuselage combined with high-tech CF main spar/leading edge tube wing and carbon/balsa built up tail parts come together to make the Albatros a strong and light model. Do not be fooled by the its retro looks. This model was designed and built to be a 21st century favorite. With its flap equipped, 3 piece wing and full flying elevator the Enigma is one of the most impressive models that we have seen in quite some time. Each part is carefully handcrafted with meticulous attention to every detail. As soon as you open the box, you will find the Top Model build quality that we have come to expect.

Virtually perfect, extremely elegant combination of classic design and modern technology.

The fuselage is reinforced with carbon!

The model is designed and manufactured in Czech Republic. Spare parts are in stock.

Technical specifications:

						
2740	1385	1,8-2,2	61,6	29,2-	MH32	
mm	mm	kg	dm ²	35,7g/dm ²	mod.	Ai+Fl+E+R+(M)

Prototype equipment:

motor: XPower F3826/10 ; (AXI 2814/12)

controller: SPIN 44

spinner: 0201559

propeller: CAMcarbon 13x6,5" for XPower; CAMcarbon 11/7" for AXI2814/12

accu: 3S, 2600-3000mAh

servos: 4x HS 82MG - flaps and ailerons; 2x HS-485 - elevator and rudder

Kit contents:

- Elegant gel-coated white fiberglass fuselage and canopy
- Three-pieces wing with ailerons and oversized flaps
- Removeable tail surfaces with carbon spar and leading edge
- Rear carbon sub spar for added wing strength
- Expertly covered with Oracover
- Includes all necessary hardware
- Virtually perfect, extremely clean and well made
- Complete assembly manual with step by step illustrations
