

Dualsky XM2830EG-14 1400kv 41g Bushless Motor

Art.Nr.: 52150

The high quality outrunner from Dualsky EG line.

- designed for lightweight glider (e.g. F5J, eRES, ASFC P5B, light F5J, speed wings, small UAV)
- hollow shaft 4,0mm
- open motor case for best cooling

Length (w/o shaft)	26,4	mm
Diameter	28,6	mm
Weight	41	g
Shaft diameter	4,0/hollow	mm
Mount pitch	4xM3/16	mm
Shaft Diameter	4.0	mm
KV	1400	KV
Internal Resistance	37,5	mOhm
Idle Current	1,35	A@10V
Burst Current(15s)	40	
Recommended ESC	XC4018BA V2	
Max. power (15s)	480	W
Slots/Poles	12N14P	
No. of cells	2-3*	LipoL

* Suggested working voltage

The motor is designed for front mount only.

The motor is already included in the database of the calculator
