

ULTRA 45R ESC 45A Regler fr Brsten Motoren - Redox

Art.Nr.: RDX-ESCU45R

ULTRA 45R brushed ESC for brushed motors, manufactured by REDOX.

Designed for 400, 500, 600 class motors, suitable for cars and boats.

Main features:

- Electronic, 2-way, proportional current ESC for brushed motors class 400, 500, 600.
- Brake mode and reverse mode (passive brake, active brake)
- Low voltage protection and MOFST overheat protection
- Factory installed Quick-Start Program (start without wheel spin)
- Stable at low speed
- Linear gas curve - immediate response to acceleration

Technical data:

- Weight: 38 g
- Supply voltage: 2s LiPo (7.4 V) or 5-6s NiXX (6.0 - 7.2 V)
- Continuous current: 45 A
- BEC: linear, 5.6 V / 2 A
- Engine winding limits: 10T / <30000 RPM

Attention! ESC is NOT waterproof. In case of installing the ESC on the boat, adequate moisture protection and level of cooling must be self-installed.
