SEAGULL 405 - Giant Thunder Stick Aerobatics Sport 96.5"
ARF 55-65cc

Specifications

- Wingspan: 245cm
- Wingarea: 129.7sq.dm
- Weight: 8.2kg
- Length: 204.3cm
- Engine: 55-65cc
- Motor: 360kv/ 6000watt/ ESC 160A-200A/ Lipo 12s
- Radio : 7 channels with 7 servos.

Key Features

- Huge 96.5" wingspan Aerobatic Sport flying and can even hover for the Giant Thunder Stick 55-65cc.
- High quality balsa and balsa plywood, these make light weight construction and carbon fiber structure provides a lightweight airframe that is ridged and strong in all the right places
- A large hatch removes quickly for easy LiPo battery changes or access to the fuel tank.
- The two-piece plug-in wings and removable tail allows for convenient transportation and fast to assemble
- The large rudder, large control surfaces, and aerodynamic nose makes this a very responsive plane in the air.
- Pre-preared pull-pull wires and pushrods with ball links
- Fiberglass control horns for optimized throw and precision. All linkages use ball links for secure
- Factory painted glass fibre wheel pants
- Incredible value with Carbon fiber Landing Gear and CNC aluminum & Carbon Fiber Tail wheel Assembly.
- High quality of Transparent Fuel Tank 500ml and PU rubber wheel plastic

Hub 4.5" and scale CNC aluminum Spinner included with High quality hardware and is a fun build.

- Includes electric conversion parts.
