

TOYAN FS-V800GCS 8-Cyl Methanol Engine 4-Stroke Kit

Art.Nr.: TE800VGCS

Toyman Engine TE800VGCS - FS-V800GCS 8-Cyl Methanol Engine 4-Stroke Kit

Long Stroke

- The cross crankshaft is the blueprint for the engine design, effectively providing higher torque. Customized flexible oil seal keeps sealing performance in high speed operation.

Mechanical Water Cooling Pump

- The power of the pump, come from the crankshaft, provides circulation power for the coolant liquid, and then in conjunction with the cooling fan to strengthen the self-cooling performance.

Intergrated processing crankshaft

- Adopt 90 degree cross crankshaft construction
- Runs more smoothl.
- Acceleration more responsive.
- Maximum speed up to 12,500rpm

Double synchronous belt pulley

- Double synchronous belt pulley timing structure.
- Greatly reduce the risk of gear jumping in high speed operation.

Precision carburetor

- New carburetor design.
- More accurate tuning.
- Makes the throttle response more sensitive and stable.

Intergrated exhaus pipe

- Makes the sound the engine more powerful

Specs

- Material: Metal
- Displacement: 28cc (3,5cc x 8)
- Engine Weight: 2,05kg
- Cooling: Water cooling
- RPM range: 1800-12500 RPM
- Piston Bore: 16,678mm
- Stroke: 17,0mm
- Power: 4,35ps
- Fuel: 16% Nitro
