

SPEKTRUM 14.8V 450mAh 4S 30C LiPo Battery: IC2

Art.Nr.: SPMX4504SIC2

14.8V 450MAH 4S 30C LIPO BATTERY: IC2 ?BERSICHT

The Spektrum 450mAh 4S 14.8V 30C LiPo is the perfect match for high power micro to mini models requiring a small and lightweight battery pack while remaining powerful, durable, and dependable.

Im Lieferumfang enthalten

Spektrum 450mAh 4S 14.8V 30C LiPo Battery; IC21

Zum Abschluss erforderlich

Compatible charger and IC2 charge lead1

14.8V 450mAh 4S 30C LiPo Battery: IC2 Eigenschaften

- 30C continuous discharge rating to deliver high performance and longevity
- Protective outer metal alloy sheet helps dissipate heat, hold battery shape, and increase durability
- Small size fits perfectly in most 4S powered micro, flat foam aircraft and helicopters
- Factory installed IC2 connector
- Equipped with balancing lead that is compatible with most balancers and chargers
- Up to 5C charge rating for quick recharging

14.8V 450mAh 4S 30C LiPo Battery: IC2

Produktspezifikationen

- Akku Spannung14.8V
- AkkutypLiPo (3.7V pro Zelle)
- ApplicationAir
- Battery Balance ConnectorjST-XH
- Capacity450mAh

- Connector TypelC2
- HartschaleNein
- Integriertes BalancingNein
- Maximum Charge Rate5C
- Maximum Continuous Discharge Current13.5A
- Maximum Continuous Discharge Rate30C
- Normal/Standard Charge Current0.4
- Normal/Standard Charge Rate1C
- Product Length1.14" (29 mm)
- Product Weight2.11 oz (60 g)
- Product Width1.04" (26 mm)
- Produkth?he2.2
- Prop 65

California Residents **Prop 65 WARNINGS.**

- Watt Hours6.66
- Zellenanzahl4
