

WL X450 Aviator RTF

Art.Nr.: WLX450

XK X450 is a brushless VTOL (Vertical Takeoff and Landing) fixed-wing RC aircraft combining multirotor and airplane flight characteristics. The model supports vertical takeoff and landing, hover flight, and horizontal fixed-wing cruising. It features multiple selectable flight modes including multirotor mode, vertical transition mode, 6G stabilized airplane mode, and 3D stunt mode. An optional 720P WiFi camera version is available with adjustable angle.

Specs:

- Motor type: Brushless (1307 ? 3)
- Battery: Li-Po 11.1V 1000mAh 20C
- Runtime: 11-12 min (vertical flight)
- Runtime: 15-16 min (horizontal flight)
- Charging time: Approx. 50-60 minutes (balance charger)
- Camera: Optional 720P WiFi HD camera (adjustable angle)
- Flight modes: Multirotor, Vertical transition, 6G stabilized, 3D stunt mode

Betriebsart:	Elektrik
Eignet sich f?r:	Experienced
Flugzeugtyp:	Sport
Losgr??e:	8
Ursprungsland:	CN
Wird geliefert als:	RTF
