

Einsteiger ELEktro Segler - Glider 750mm RTF Blue

Art.Nr.: WLF959S-BLUE

WL F959S Sky-King is a 3-channel fixed-wing RC glider with rear pusher configuration. The airframe is manufactured from impact-resistant EPO foam and features a folding propeller system to reduce drag during glide flight. An integrated 6-axis gyro stabilization system supports stable and predictable handling characteristics, suitable for entry-level pilots. The model is supplied as a ready-to-fly package including transmitter, Li-Po battery and USB charger.

Specs:

- Wingspan: 750 mm
- Channels: 3CH
- Motor type: N60 Brushed
- Stabilization: 6-axis gyro
- Battery: Li-Po 7.4V 300mAh
- Runtime: Approx. 15 minutes powered flight
- Glide time: Over 20 minutes
- Charging time: Approx. 30-40 minutes (USB)
- Control distance: Approx. 200 m
- Material: EPO foam
- Flying weight: Approx. 100 g
- Included: RTF with transmitter, battery and USB charger
