

O.S. GT60 Petrol

Art.Nr.: OS38608

The new GT60 is the largest in the range of O.S. Petrol Engines. It features liner-less cylinder integrated with the cylinder head with thoroughly pursued best intake/exhaust timing and high scavenging efficiency. This contributes to better cooling and lighter weight. It employs the reed valve/rear carburetor system which has high performance. A great power source for big scale and aerobatic models.

Spezifikation			
Gewicht:	1,400g (49.38 oz.)	Capacity:	3,656 cu.in (59.91cc)
Bore:	44.0mm (1.732")	Stroke:	39.4mm (1.551")
Power Output:	6.0 hp (6.06ps) @ 7,000rpm	Practical RPM:	1,600 - 8,000
