### Product description:

French fighter aircraft of World War I, Nieuport 17, is etched into the history of many battles. Nieuport became the aircraft of many other nations, and now this aircraft became the model for our next model from EPP foam. Nieuport 17 is completely made from EPP material and contain a lot of plywood parts. We tried as much as possible to remain faithful to the aircraft, but also offer a model with a great flight characteristics. This model is a compromise between fidelity to their originals and flight quality. Nieuport contemporary design has two squadrons of the French Air Force, kit contain guns, wooden chassis or other details, such model is very attractive and looks very attractive in the air and on the ground. The airplane is for lovers of the golden era of aviation and also for all pilots, who have a basic experience in managing rc planes.

Airframe is composed of counters, it's very tough and there is possible to use a wide range of components.

Model build time is approximately 2-3 hours.

The kit contains: assembled fuselage, two pairs of wings, rudders, complete accessories needed to finish the model (wheels, levers ,etc.), plastic parts, plywood parts (guns,...). Pilot not included.

All parts are in the selected color treatment.
